This pandemic wouldn't stop our desire to help and share our expertise so we have come up with a program that will continue to serve our purpose .

B. Issue/s Addressed

Out of the 1,800 grade 9 and 10 students last year, 2% is always absent from the class and 0.5 % drop outs had been recorded. The school administration worries about this situation. To resolve this problem, the TLE Department has created a project proposal entitled " Online Pangkabuhayaan Mula sa mga Guro ng Manggahan". It is a project that will showcase the skills of teachers which could garner much interest from the public. This could lead to gaining a strong support, which in turn, could provide for the financial needs of the family. This project aims to eliminate or minimize absenteeism to students and augment family income.
